

MINES AND MINING STOCKS FINANCIAL AND COMMERCIAL

DALY-WEST'S ANNUAL HELD

Two Easterners Named on Board of Directors.

RESERVE IS \$284,148.45 METAL PRODUCTION AND DIVI DEND RECORD.

(Special to The Herald.) Denver, Colo., Feb. 20.-At the an nual meeting of the stockholders of the believe that we shall make one during Daly-West Mining company, two new directors, Dr. Albert Watts of Bostol and Lazard Kahn of Hamilton, O., were elected. Thomas James of Cincinnati led the movement for eastern reprentation, and Kahn received an alr unanimous vote. About 150,000 shares were represented. J. E. Bamberger, W. S. McCornick and Judge W. H. Dickson, all of Salt Lake, were re-elected. President Bamberger, after the meeting, said it was harmonious throughout, although a number of knotty questions had to be solved. Reports to Salt Lake tomorrow, to inspect the

Finances of the Company.

All things considered, it was a fine All things considered, it was a fine statement which the management was able to present at the annual meeting of the Daly-West company in Denver yesterday afternoon. While the financial statement shows that the treasury reserve was reduced to \$284,148.45, or \$170,847.83 below what it was at the beginning of the year, the disbursement account when it reaches the shareholders in detail will make it plain that the surplus was not drawn on for more than about enough to pay one dividend ruction of the wrecked ore bins, mi dargement and machinery purchas account, leaving, if the figures wer vidend account. When the difficules under which the mine and mill wa erated for a portion of the year arken into consideration, it will build that there was little foundation in truth for the many wild storie which were sent out during the yea touching the physical condition of the mine and its handling.

What Reports Will Show.

No reports, other than the financial exhibits, were obtainable yesterday, anothing but the original drafts were out and they were taken to Denver That they will make a good showing so far as the condition of the mine an the amount of work done during th year is concerned, there is little doub. will also show why the tonnag large as they were during 1903. For stance, they will show that the closg down of the Quicy works, while it duced the output of first-class ore. ected a great saving in operating ex

President J. E. Bamberger, will undoubtedly deal with the contract which has been entered into with the Ontario and Daly companies to have their drain ory and the advantages of the work to the company will most certainly be cointed out. These and other matters he return of the officials, will go to brokers are not always to be reupon when it comes to passing judgment on the value of a mine or the

Receipts and Ore Sales.

The receipts of the company from all urce during the year was \$2,280,139,75, against \$2,643,747.52 during 1903, a ecrease of \$363,607.77. From the sale of ores and concentrates the ceived during the year \$1.804.672.83. he figures show that the concentrates id crude ore produced were both orth more per ton than they were in 1903, the better work of the mill being calected in concentrates worth \$4.10 per one more, on the average, than they were during the year previous.

were during the year previous.

Of the regular grade of crude ore 28,-355 dry tons were shipped. It contained 1,923,831 pounds of copper, 11,-325,964 pounds of lead, 1,066,55 ounces gold and 1,578,924 ounces of silver, which sold for \$885,169,30.

During the time the Quincy works were operated 14,440 tons of ore, carrying 450,452 pounds of copper, 4,547,258 pounds of lead, 692,33 ounces gold and 625,158 ounces of silver, was sold for \$305,600.75.

The concentrates produced amounted

\$305.600.75.

The concentrates produced amounted to 15,207 dry tons, containing 541,340 pounds of copper, 9,616,557 pounds of lead, 607.88 ounces gold and 848,652 ounces silver, which sold for \$605,738.65.

A new product, known as mill crude, which comes from the sorting belts introduced into the plant a few months ago, amounted to 267 tons. This ore carried 7,382 pounds of copper, 151,665 pounds of lead, 9,59 ounces gold and 11,490 ounces silver, and sold for \$8,164,13, or \$30.58 per ton, net. The concentrates brought \$39.83 per ton, the Quincy crude \$21,16 and the regular crude \$31,22 per ton.

Dividend Paid.

The dividends paid during the year ere precisely the same as they were uring 1902, or \$1,044,000, while the total paid to date by the company is \$4,635,-Alpha
2000. This is practically 50 per cent of be beginning, which has been \$8,955,-12.97. All of this sum of money, with the exception of a trifle over \$336,000, has been taken out of the mine during

he last six years.

At the meeting in Denver yesterday At the meeting in Denver yesterday the following board of directors was elected, and the organization and election of officers will probably follow in a day or two: J. E. Bamberger, W. S. McCornick, W. H. Dickson, Lazard Kahn of Hamilton, O., and Dr. Albert Watts of Boston. The Salt Lakers at the meeting are expected to return home this evening, accompanied by the eastern directors.

SILVER BELL STRIKE.

Rich Ore Comes in Face of Drift

Headed For Main Body. Rich carbonate and galena ore, jus ach ore as men familiar with the camp nd its mines are in the habit of assojating in their minds with the high-rade articles from the Quincy, Daly, grade articles from the Quincy, Daly, New York and other properties where chlorides add life and luster to the appearance of the rock, has been encountered in the Silver Bell. Manager N. W. Sonnedecker brought down samples of it with him on his return from camp Sunday night. Quantity is the only thing lacking. The ore has made in a small fissure which cuts diagonally through the face of the drift which, in another sixty feet, will tap the main ledge of the property. A feature of the development of the last few days which is no less encouraging is the appear-

lost his life by being struck with falling planes of the lime. That it will lead directly to the main fissure Manager Sonnedecker has not the saightest doubt, and the drift will now had previously been so badly injured to a connection with the main ledge and the ore chute which development several hundred, feet above has shown should be there.

"The most pleasing thing about these developments to me," said Manager Sonnedecker yesterday," is that they are justifying and demonstrating as perfectly as they could the plan of development I had marked out and the cultive party, including his thiory upon which it was based. The main fissure in our property is one that, in my judgment, underlies the main type in the Comstock. The ore its identical with the rich stuff we encountered in the workings over 390, feet higher up, and I consider that we have hugher up, and I consider that we have

MINING STOCK EXCHANGE.

New York Bonanza the Only Thing With Life In It.

New York closed on Saturday with sales at 55% c. It opened yesterday at 55% c and rose to 61c. From that it was crowded back to 55% c. and closed the day at 60% c. Alax brought 15c: Butler-Liberal, 13% c; May Day, 9% c and 10c, and Uncle Sam, 27% c. Nalidriver sold at 50c on the open board, Ontario, sold fifty shares at \$4.50 and trotowas a little stronger at 19% c. During the day a total of 26,650 shares of stock, the selling value of which was \$4.521.62, changed hands. The list of closing quotations and record of sales follow:

PLANT IN COMMISSION

Cactus' 800-Ton Concentrator Began Its Career Sunday.

Advices from Newhouse, in Beaver ounty, yesterday were to the effect county, yesterday were to the effect that power was turned on at the great 800-ton milling plant and that the rolts and sizers were soon in full play preparing the ore for the jigs and tables. By yesterday it was expected the tables would begin doing their work and by the end of the present week the plant will be operating at a goodly portion of its capacity.

President Samuel Newhouse and all of his staff, together with some invited guests, were present to see the start and make an inspection of the mine and the electric haulage system as well. Nothing could have gone smoother at the start, it is said, and good feeling was everywhere apparent as the magnificent machinery and upto-date equipment was watched going into commission.

One thing only happened to mar the

(Special to The Herald.)
Payson, Feb. 29.—Edward and Wells Simens returned Saturday from their mining interests in the Deep Creek country, where they have been all winter. They are jubilant over the appearance of their mine, which, they say, will prove one of the best producers in that section of the state. the best producers in that section of the state.

These men, together with J. H. Snell and Cyrus E. Snell of Spanish Fork, have four claims near Gold Hill. in the Clifton district, and a short distance from Dutch mountain, east. The two Simons have been doing the assessment work on the property for years, and this winter they were at the usual annual work without anything encouraging presenting itself when all of a sudden a fine looking though small body of ore was broken into. The vein rapidly enlarged to nearly four feet at a depth of twenty feet, and when they left the mine they had extracted several tons of ore and piled it up for shipment.

Average samples which they picked up from this ore and brought to Payson to be put on exhibition run in value \$100 per ton.

American Smelting & Exploration Companies to Combine.

Companies to Combine.

New York, Feb. 20.—The terms under which control of the Guggenheim Exploration scompany will pass into the hands of the American Smelting & Refining company have practically been settled. It is proposed to form a joint corporation with a capital of \$49,000,000, half of which is to be 6 per cent cumulative preferred, and half common stock. The preferred shares are to be divided into two classes, series A and B. \$7,500,000. It is proposed to increase the A stocks by \$5,000,000 at some future day, making the entire issue of preferred shares \$30,000,000.

J. A. Largent Sues Henry Catrow J. T. Hammond ... J. T. Hammond ...

For Share in Ohio Copper Co.

Suit was filed yesterday in the office of the cierk of the district court by J. A. Largent against Henry Catrow. He alleges in his bill of complaint that Aug. 20, 1903, he entered into a contract with the defendant to promote the organization of a company to take over mining property in Bingham canyon, on which the defendant and O. A. Tibbitts had a bond. The company was organized and named the Ohio Copper company and capitalized for \$1.000.000 and took over the property. This was brought about through the efforts of the plaintiff.

He alleges further that he was to receive 5.000 shares of the capital stock of the company for his services, but that Catrow failed to carry out his part of the contract. He asks that he be either awarded 5.000 shares of the stock or its value, \$5,000.

STOCK MARKET BEARS UP WELL

News of the Day Was Against Higher Prices.

LITTLE HARM WAS DONE

CLOSE WAS FIRM AT THE TOP
LEVEL.

CLOSE WAS FIRM AT THE TOP
LEVEL.

New York, Feb. 20.—The stock market demonstrated again today in a striking manner its power of resistance, against adverse influences, such as would have worked decisively for a swould have worked decisively for a reaction in periods of past speculative activity. Even the traditional prejudice against an active opening on Monday morning proved of no effect, although there was hesitation at a reaction after the strong opening. The most obvious of the influences against the market was the rather discouraging condition of the country's transportation discovered by the weekly talks with traffic officials. These reported a conditions would be restored for many weeks. A still further cut was made in the rates for export again. The gross agaings for the second week of February showed already quite clearly the effect of these influences.

The ware the cases of a beliting the property and the control of the country's transportation also overed by the weekly talks are conditions would be restored for many weeks. A still further cut was made in the rates for export again. The gross and conditions would be restored for many weeks. A still further cut was made in the rates for export again. The gross are conditions would be restored for many showed already quite clearly the effect of these influences.

The ware the cases of a beliting the property the cases of a beliting that the property of the second week of February showed already quite clearly the effect of these influences.
